Languages

JavaScript, TypeScript, SQL

Frontend

React.js, Next.js, HTML5, CSS3, Tailwind CSS, Ant Design

Backend

Node.js, Express.js, GraphQL, TypeORM

Databases

PostgreSQL, MySQL, Redis

Tools

Git, GitHub, Docker, Postman, VS Code, Figma

Professional Experience

Software Developer

Aug 2023 – Present

TDC Consultancy Pvt Ltd., Udaipur

- Developing scalable web applications using React.js, Next.js and GraphQL.
- Building backend services with Node.js and PostgreSQL.
- Creating reusable UI components using Tailwind CSS and Ant Design.
- Collaborating with designers and backend teams to deliver production-ready features.

Salesforce Intern

April 2023 – August 2023

TechForce Services

- Learned Salesforce Administration and Lightning Platform.
- Worked on Trailhead modules and CRM customization.

Web Developer Intern

Jun 2022 – Nov 2022

CodePlanet Technologies

- Developed web applications using Python and Django.
- Learned MVC architecture and database integration.

Projects

Joy Fashion – Full Stack E-Commerce Platform : <https://www.joyfashion.co.in>

React.js • Next.js • Node.js • Express.js • PostgreSQL • GraphQL • Tailwind CSS • Razorpay • Google OAuth

- Built a production-ready full-stack e-commerce platform with separate customer and admin interfaces.
- Implemented secure authentication with Google Sign-In, email-based login, and role-based access control.
- Developed a complete shopping workflow including product browsing, cart management, checkout, order creation, and payment integration.
- Integrated multiple payment gateways to enable secure online transactions and order processing.
- Designed a dynamic homepage where banners, featured products, and content can be managed directly from the admin panel without code changes.
- Developed a template management system that allows administrators to switch between multiple website templates dynamically.
- Built a comprehensive admin dashboard to manage products, categories, inventory, customers, orders, homepage content, and website settings.
- Optimized database queries and API performance, ensuring fast page loads and a seamless shopping experience across desktop and mobile devices.

TDCCommerce ERP

React.js • TypeScript • GraphQL • Node.js • PostgreSQL • FedEx API • USPS API • UPS API • Tailwind CSS • Ant Design

- Currently developing the **Transaction Module** for the TDCCommerce ERP, streamlining order fulfillment workflows.
- Building automated shipping integrations with **FedEx, USPS, and UPS**, including shipment creation, label generation, tracking, and fulfillment workflows.
- Developing configurable workflow and scripting solutions to automate complex fulfillment and transaction processes.
- Designed and implemented responsive, reusable, and scalable UI components using React.js, TypeScript, Tailwind CSS, and Ant Design.
- Improved the ERP’s overall user experience by enhancing UI consistency, spacing, responsiveness, and accessibility across multiple modules.
- Integrated GraphQL APIs for real-time transaction management and optimized frontend performance for handling large datasets.
- Collaborated with backend developers and QA teams in an Agile environment to deliver production-ready features and improve system reliability.

Food Delivery Platform

React.js • Next.js • GraphQL • PostgreSQL

- Developed restaurant management dashboard.
- Implemented authentication and role management.
- GraphQL APIs built for orders and menus.
- Optimized PostgreSQL queries for better performance.

Education

Bachelor of Technology (Computer Science)

Techno India NJR Institute of Technology

2020–2024

Certifications

- Full Stack Development Certification
- Salesforce Administration Training
- Professional Web Development Certification
- HTME certificate
